Publication of Sketches and Pictures of Y-12ers Process To Be Used By Carborundum Promoted in Past Year Starts in The Bulletin FirmToProduceZiroconium,Hafnium

Order Of Appearance Has No Significance

With this edition of The Bulletin, publication of pictures and sketches of the more than 100 Y-12ers who have received promotions since July 1, 1951, is started. The Bulletin plans to publish several of these sketches and pictures each week in recognition of the promotions that were given as a reward for excellent work records.

There is absolutely no significance in the order in which the sketches will appear or the number of them that are printed in each edition of the paper. Following are the first six:

Jennings B. Atchley-This veteran of the Y-12 Guard Department has been an employee since August 28, 1943, when he came to work in the plant. He was promoted from sergeant to the rank of lieutenant on January 1, 1952. He lives at 127 Childress Street, Knoxville. Lieutenant Atchley was married in 1918 and he and his wife, Mrs. Elizabeth Atchley, have sons, Cecil L. and Troy J.

Atchley.
William Lawrence Coggins—His service with Y-12 started on March 10, 1944, and he was promoted from receiving and shipping clerk to labor foreman on October 1, 1951, in the Property Sales Department. He lives in Powell with his wife, Mary Lou, and two chil-dren, Larry and Allen. They were married in 1937.

Clarence Johnson-Much of the statistical work in the Safety Department for the past several years has been handled by Clarence Johnson. He came to work in Y-12 on March 10, 1944, and on July 1, 1951 he was promoted from safety reports clerk to reports en-ineer. He was married in Februs ineer. He was married in February, 1943, and his wife, Elizabeth, also is a Y-12er. They live at 208 West Vanderbilt Drive in Oak Ridge and have no children.
Oscar Woodrow Patrick — His

service in Y-12 dates from May 24, 1948, when he came to work in the Property Sales Department. He spent about one year in the army after coming to the plant.

New Women's First Aid

The disbanding of one first aid

team and the formation of another

to participate in the annual Car-bide First Aid Contest was an-

nounced last week by the Train-

ing Department. The contest will be held at 7:30 o'clock Saturday

night, August 23, at Blankenship

Because of the difficulty of

working a training schedule into

their rotating shift working hours, the team representing the Chem-ical Processing Division was forced

to abandon its intention of en-tering the Carbide contest. The

new team is a women's group, the second to be formed in Y-12 for

the contest, representing the

Product Processing Department.

Work To Start Soon On New Carbide Plants

Oak Ridge, Paducah Facilities To Expand; **Barge Line Is Opened**

Construction work on two new gaseous diffusion plants for the Atomic Energy Commission, both of which will be operated by Car-bide and Carbon Chemicals Company, is scheduled to begin immediately, it has been announced by S. R. Sapirie, manager of the Oak Ridge Operations for the AEC. The plants will cost almost one billion dollars to construct. K-33 To Cost \$464,000,000

One of the plants, to be known as K-33, will be located in the K-25 area of Oak Ridge and will cost \$464,000,000. The other plant is an addition to the present gaseous diffusion installation at Paducah, Ky., which will cost \$459,000,-

Another interesting development to Carbide employees in Oak Ridge is that the Company has instituted, through contract, a barge line to ferry material between the K-25 area and Paducah. This service began last Monday, July 21, when the first shipment left a newly constructed dock on the Clinch River near the K-25 plant. The service is being given by the Arrow Transportation Co., which is using a tow boat and two barges

Developed In Y-12 For Commission

AEC Awards Contract For Manufacture Of Rare Metals And Calls Move "Significant Step" In **Program To Let Private Firms Take Over Work**

A recent announcement in the Wall Street Journal and several scientific publications that the Atomic Energy Commission had let a contract to the Carborundum Metals Co., Inc., for production of zirconium and hafnium metal revealed that the process to be used by the company was developed right here in Y-12 by Y-12 and Oak Ridge National Laboratory personnel for AEC.

AEC officials have declared that the Carborundum contract represents a "significant step" in the commission's program to encourage private enterprise to take over portions of the commission's work in atomic energy development that can be handled on a conventional business basis. The Carborundum Metals Co., Inc., is a new subsidiary of Carborundum Co., Niagara Falls, N. Y.

Y-12 Accident-Free String Again Broken

The Y-12 accident-free string of days was snapped again last Wednesday, July 23, when an accident in Bldg. 9211 resulted in a losttime injury to an employee. In reporting the incident, the Safety Department thusly described the

"On July 23, a foreman in Dept. 2619 (Chemical) was in the process of shutting down a re-circulation operation in Bldg. 9211, in trying to control an emergency condition that had arisen. He hit the push button control to cut off a pump and then went a few steps to close a valve on a two-inch glass line on the discharge side of the pump. The pump had continued to run. and the closing of the valve caused a high pressure which blew out a gasket at a flanged connection. The acid solution sprayed out at the break into the employee's face and eyes. Injury to one eye was sufficient to disable him for a few days.

Both for their own safety and continued good health and for the sake of better efficiency of the plant, all Y-12ers are urged to observe all safety rules in the plant.

The AEC announcement marked the successful achievement of a project launched more than three years ago in Y-12 to supply a material urgently needed for construction of newly developed nuclear energy facilities. During the winter of 1947 and 1948 research men of the Oak Ridge National Laboratory began work to develop this material and found that zirconium was the most suited for the purpose. Previous to that time zirconium had been unavailable in greater than gram quantities. As the project developed the major effort was put forward by the Materials Chemistry Division of ORNL at Y-12 under direction of Glen H. Clewett, Warren Grimes, and William H. Leaders.

Pilot Plant Started In 1949 Laboratory studies were begun early in 1949 on the most efficient method of separating zirconium from its impurities, including hafnum. Both metals are produced from zircon sand obtained from the beaches of Florida and are usually found in a mixed state, along with other elements. By September of that year the group had succeeded in placing in operation a pilot plant capable of produring several pounds of zirconium oxide daily with a low haf-nium concentration.

Investigations of the problem were continued in the pilot plant until January, 1950, with the result that the separation process was made more and more efficient. This, in turn, made the expansion of the pilot plant into a full-scale production unit a necessity for successful achievement of the objective—the production of very pure zirconium oxide in substantial quantities.

Plant Expanded In 1950 Responsibility for the development of the program then was placed in the hands of Jesse M. Herndon, Process Division Superintendent; George A. Strasser, Chemical Operations Department Continued on Page 2

Ridge Horse Show Set For August 15

The fourth annual Oak Ridge Horse Show will be held on Friday night, August 15, at the new pavillion of the East Tennessee Riding Club and Horse Show Associates, Inc., it has been announced by James P. Jackson, president of the organization. The new grounds of the group are on Tuskeegee Road in the Gamble Valley warehouse section.

Grandstand Being Built

Members of the organization are busily engaged in building a grandstand and ring for the August 15 show and future exhibitions. A grandstand with a seating capacity of 600 persons is being constructed and an additional 200 reserved box seats will be placed in front of the

The club has a 17-acre tract obtained on lease from the Atomic Energy Commission with option to purchase. In addition to the grandstand, club members are building a ring for the showing of horses. This has been done by laying a gravel base and covering it with many loads of dirt. A clubhouse also is being provided in a building formerly used as a warehouse. Office quarters already have been installed and plans call for remodeling to provide space for general activities such as dancing and social events.

100 Entries Are Expected

Another former warehouse build-ing will be remodeled for stable This will not be ready for the August 15 show but hitching posts and temporary stalls will be available for the approximately 100 horses expected to be entered

Y-12ers interested in horse shows may obtain tickets for the August 15 event at the Music Box.

Pictures And Sketches Publication Is Begun

He was promoted from receiving and shipping clerk to labor foreman on October 1, 1951. Married on July 4, 1944, Patrick and his wife, Lucy Alice, and three chil-dren, Oscar W., Billie Carr and Alice June, live at Petros, Tenn.

J. M. Patterson-Another "oldin the Guard Department, he came to work in Y-12 on September 8, 1943, and on January 1, 1952, was promoted from sergeant to lieutenant. He is married and with his wife, Lydia, lives at 319 Ault Street, Knoxville. They have three children, Katherine, Charles and Joseph. They were married November 29, 1917.

Benjamin Franklin Thomas Coming to work in Y-12 on October 5, 1943, he received his promotion from sergeant to lieutenant in the Guard Department on January 1, 1952. He commutes to Y-12 from his home at 500 Black Oak Drive, Knoxville. He was married on February 28, 1945, and he and his wife, Faye, have one son, Patrick Joseph.

There is no danger of developing eyestrain from looking on the bright side of things.

Have you ants in your pantries-or kitchen-or anyplace else around the house? Perhaps the cure sent in by a well-meaning but anonymous contributor to The Bulletin might help out.

The proposal is to place slices of raw cucumber around the floor. Well—we'll bite. What do the poor ants do? Eat the cucumbers and burp themselves into ant eternity?

The Guard Department extends get-well wishes to Capt. Joe Conner, who is ill at his home in Lenoir City . . . W. E. Green spent a veek of vacation at his home in

Winchester, Tenn.
Emmett Moore, of the Fire Department, and his family attended a home-coming at his home in Marion, Va., while vacationing recently . . . Capt. E. F. Greer put his vacation time to good use recently by painting his house in Knoxville . . . Jerry Hasting is spending a quiet week of vacation

at home in Oak Ridge.
Ollie Morris, of the Laundry, is visiting her sister in Chattanooga for a few days and then going on to St. Petersburg, Fla., for the rest of a two-week vacation . . . The department extends sympathy to Flossie Smith on the recent death of her father, Byrd McGhee, in

Briceville.

Reva Dagley, of the General Maintenance Offices, has returned from a week's vacation with her mother in Wartburg.

L. W. McNeil, of Research Engineering, and his family spent a week of vacation in South Caro-

Carl Brewster, of Medical, expects to do a bit of boating on the local lakes while vacationing in and around Oak Ridge, this week.

J. D. Raulston, of Manufacturing Offices, decided to take in some of the Florida sunshine while vacationing last week . . . The department extends best wishes to Maola Conner's mother, who is a patient at St. Mary's Hospital in Knoxville. She was reported in critical condition Monday.

R. S. Ware, of Plant Engineering, and his family are visiting Wyoming's Yellowstone National Park while on two weeks of vacation . . . Helen McNew with a cousin, and Jane Blackwell, a K-25er, spent a week's vacation at Daytona Beach, Fla. . . . Robert Thompson and his wife visited in Kentucky last week . . . M. B. Bridges spent his week's vacation around home in Knoxville . . . Nicky Tronolone and his wife are spending a part of his two-week

vacation in Miami, Fla.
Fashion note for Y-12 gals—and the guys might try it too. Miss Esther Moody, our Girl Friday around Grand Central Depot (The Bulletin and Recreation Office) has a new style in headgear to help —a little bit, she says—beating the heat. She takes any old large manila envelope that has outlived its usefulness for enclosure of mail and slips it over her blonde curls.

Cheap and expendable.
Property Sales extends sincere sympathy to A. A. Gibbs and his wife, whose 13-year-old daughter, Sherry Ann, died on July 19. Good luck and best wishes to Hazel Tompkins, who terminated last Friday, to go with her husband to California, where he has accepted a job—they plan to take a northern route in order to see part of the country and to visit with a daughter in St. Joseph, Mo., and relatives in Kansas, then on to California where they will spend Some time with a son in National City before settling down to work.

The following accepted a confined from Fage 1 from the three Oak Ridge Carbide units and the Company plant at guest of honor at a luncheon last Thursday at the cafeteria. About 50 were there.

Some time with a son in National Company to the proposition with the AEC in Aiken, from the three Oak Ridge Carbide units and the Company plant at guest of honor at a luncheon last Thursday at the cafeteria. About 50 were there.

Some time with a son in National Company to the proposition with the AEC in Aiken, from the three Oak Ridge Carbide units and the Company plant at guest of honor at a luncheon last Thursday at the cafeteria. About 50 were there. of the country and to visit with a City, before settling down to work.
The Superintendents Depart-

ment and the many friends of June Messer, a former member of the department, extend congratulations to her and her husband at the birth of a baby boy at St. Mary's Hospital in Knoxville, July 20. Little Stephen Ricky weighed

seven pounds at birth.

Rubye McCloud, of Chemical,
has returned from a week of vacation which she spent at home except for a short trip she and her

Control and Computing, is visiting relatives and friends this week in Kentucky . . . Shirley Thompson vacationed last week at her home in Minnesota . . . Ed Bailey is tak-ing life easy this week around home in Oak Ridge . . . A. K. Bissell divided last week's vacation time between Washington, D. C., and New York City . . . Verner Anderson is spending a part of his two-week vacation in Canada . . . Flo Coefield visited relatives and friends in Birmingham, Ala., over ne week end.

Helen Beckner, of Maintenance Shops, has returned from a recent vacation which she spent with her folks in Detroit, Mich., and a few days with her grandmother in Winsor, Canada . . . Rudy Mannheimer is spending two weeks of vacation at his home in Detroit, Mich. . . . R. V. Hawk is spending his two weeks in Roanoke, Va. . . . Congratulations go to H. J. Nelson at the recent birth of a baby girl weighing eight pounds when she was born at a Knoxville hospital . . . W. K. Forrester and W. H. Park and their wives were the recipients of a steak dinner with all the trimmings when a fishing bet paid off with L. D. Hayes, of the Administrative De-

Lucia Padgett, of Stores, visited her son, A/3-C David C. Padgett, at the Scott Air Force Base in Belleville, Ill., while on vacation last week. She also visited St. Louis, Mo., and other places interest while on the trip . . . Mary Nell Smith spent her week of vacation around home in Oliver Springs . . . J. L. Hamon is vacationing down Memphis way.

partment.

H. F. Eubanks, of Receiving and Shipping, vacationed last week at home in Byington.

Frank Kertesz, of the Material Chemistry Division, and his family spent a week's vacation in New York, after which Frank attended a conference in New Hampshire. George Nessle was host at a party for the ANP Section of the Division and their families given at his home in Oak Ridge, on July 12. The afternoon was spent playing games and was followed by a weiner roast with all the trim-

Velma Rogers, of Isotope Research, is spending a two-week vacation with her folks in Spokane. Wash.

The Health Physics Department welcomes Ben Easter to the roster. ... Florence Househ with Pat Smith, of AEC, Ronnie Ballach, of Southern Bell, and Bill Lukeman, of the Analytical Chemistry Division, are spending this week's vacation cruising in the Atlantic Ocean off the coast of Maine, on the schooner, The Enterprise. The group flew to New York and will fly back after the cruise is over.

The Electromagnetic Research Division wishes the best of luck for Nat Stetson, who has accepted a

proud mamma of a six-pound boy, born July 24 at the Baptist Hospital in Knoxville.

The Safety Department extends sympathy to J. F. Carpenter at the untimely death of his niece, Mrs. Betty Green, who was killed in an automobile accident near Roanoke, Va. She and her mother were returning from a shopping trip there to Natural Bridge, Va., husband made to Virginia.

Bertha Crowder, of Uranium

Here to Natural Bridge, Va., when the accident occurred on July 22. Many Y-12ers remember

PICTURE - TAKING MAN gets his pitcure taken. This rare picture of Paul Ziemke, of the Safety Department, all dressed up and vacationing in New York is evidence that he actually got there—a fact partially disputed after reports the nearest he got was the heights of East Orange, N. J. Anyhow, here is "Old Baggy Pants" (he described himself thusly) standing at Battery Park in Lower Manhattan with a part of the majestic skyline of the city behind him. The second tall building from right, with the tapering and pointed tower, is the Woolworth Building, the city's first real skyscraper but now dwarfed even by structures in the same vicinity. The picture was made by Myron Ziemke, son of Paul, as the family took an eastern vacation trip recently.

Betty as she worked in the Property Department for about two years and made many friends. She left Oak Ridge in 1950, when her husband went to Washington to accept a job there.

The best of luck goes to Arthur

Cleveland, of Buildings and Grounds, who left last week to volunteer his services in the Army Also good luck to Roy Ray, of Transportation, who has been

inducted into the Army.

Three Y-12 employees listed as fathers of babies born last week at the Oak Ridge Hospital. Nathan B. Keplinger, Field Maintenance, became father of a boy on July 21. Paul Weigelt, Maintenance Shops, became father of a girl on July 22. His wife, Dorothy, is a former Y-12er in the Medical Department. Herman L. Dickerson, Electromagnetic Re-L. Dickerson, Electromagnetic Research, became father of a boy on

New Women's First Aid Team Is Organized

Teamwork is the cure for over-

The following Y-12 employees were patients in the Oak Ridge Hospital last week: Mary E. Lee, ANP Division; Horace R. Floyd Chemical; George G. Everett, Field Maintenance; Willie Pitchford, Administrative Product; Samuel G. Dornan and Marley L. Cooper, Guard; William L. Blackford, Administrative Normal.

Work Starts Soon On New Carbide Units

at present. The trip from here to Paducah will take about five days down the Clinch and Tennessee rivers to a government dock near Paducah. The service was arranged for after surveys revealed it would be economically feasi-

Same Contractors Engaged

The Maxon Construction Co., of Dayton, Ohio, and other contractors will build the new K-33 plant here and the Paducah unit will be built by F. H. McGraw and Co., of Hartford, Conn. These contractors erected the newly completed K-23 plant here and the original unit of the Paducah plant. Details of construction and the completion dates for both the new plants will not be disclosed.

Completion of the new plants

will result in the substantial increase in production of fissionable material for use in weapons or as fuel in nuclear reactors, the AEC

Y-12 Process Will Be Used By Private Firm

Superintendent; and John M. Googin. They at once began planning the proposed expansion of the pilot plant. With the cooperation of the Y-12 Maintenance and Engineering Divisions under direction of George W. Mitchel and J. Clyde Bowles the pilot plant was com-pletely re-engineered and equipped for large-scale production in about two weeks.

J. W. Ebert, of the Chemical Division, has been in charge of the production plant since its capacity was increased. This plant was placed in service November, 1951, and the separation of zirconium from hafnium and production of highly pure zirconium has become a continuous operation. Production has been increased from about 10 pounds to more than 1,000 pounds per day and constant efforts are being made to improve the process and reduce the which already has been reduc a small fraction of what it was be fore the scientists in Y-12 bega their research work. Firm To Build Own Plant

Under the contract with AEC, Carborundum Metals will design, build, and operate its own plant for the production of zirconium and hafnium. AEC officials have said that the contract provides for

Union Carbide Sets 50c **Dividend On Shares**

The board of directors of Union Carbide and Carbon Corporation have declared a cash dividend of 50 cents per share on the outstanding capital stock of the Corporation, payable September 2 to stockholders of record on August 1, it has been announced by officials of the Corporation. The last dividend was 50 cents per share paid on June 2 of this year.

TO OPEN NEXT WEEK RIDGE SOFTBALL TOURNEY

HERE ARE THE Y-12 RED BIRDS, THE MEN'S VARSITY SOFTBALL TEAM THAT CARRY the plant colors into action this season. Front row, from left, are Sam Schultz, Jack Addison, K. O. Montgomery and Bobby Loy. In rear are Lew Fitzpatrick, Bob Ridings, Ed Guy, Jim Morgan, Walt Simmons, Harold Babb, Tom Webber and Gene Huskinson. Regulars absent when picture was made include Manager Roy Roberts and Morris Perry. The youngster in front is the batboy and mascot and son of Harold Babb.

Y-12 SPORTS NEWS

Plant Loops Lead Deadlocked; All Thumbs 600 004—4 7 2 2 13 3 **High Scoring Features Games**

Two teams were running neck and neck for the lead in both the Carbide and Carbon Leagues of plant softballers at the end of hectic hostilities last week. Bldg. 9212 and the Uranium Control Junior Varsity shared first place in the former loop with one win and no losses each. In the Carbon League the Rusty Nine and Hobslurps each had a pair of wins and no defeats.

Games last Friday night all were slugfests with the feature contest being a 14 to 13 victory by the Hobslurps over the Engineers, the winning run coming in the last half of the final inning. The Bums bounced the Peons by 27 to 6 and the Guards trimmed the Sparks by

High scores returned to the books in early plant leagues games last week. In the Carbon League the Grocers trounced the Short Circuits in a slugfest by 20 to 14, and the All Thumbs also plastered 20 runs on the Short Circuits in 20 runs on the Short Circuits in another clash in which the losers tallied only four times. The Rusty Nine racked up a pair of wins during the week by licking the All Thumbs by 17 to 5 and the Grocers by 8 to 1. The Hobslurps banged out a 10 to 6 victory over the Sparks and the Engineers trounced the Guards by 10 to 5 as Bill the Guards by 10 to 5 as Bill Koons walloped a homer.

The UCJV outfit got some revenge for the playoff victory gained over them by the 49ers for gained over them by the 49ers for the first half of the season title in the Carbide League when the uranium lads took a 3 to 1 tri-umph in their first clash of the second round of play. This was one of the best games of the season and saw Hopper, of the victors, best Ed Sise, of the 49ers, in a mound duel. Hopper also got a pair of hits to lead his side at bat, and allowed the opposition only and allowed the opposition only of three safeties. The 49ers broke slow pitch team three runs in the and allowed the opposition that three safeties. The 49ers broke even during the week, however, as they took a wild one from the Bums by 13 to 11 by scoring twice in the eighth inning of an overtime in the eighth inning of an overtime in the eighth inning of an overtime in the eighth is saw the lead switch gave the Y-12ers undisputed pospage that saw the lead switch gave the Y-12ers undisputed pos game that saw the lead switch several times. The Duds were session of smothered by Bldg. 9212 by 18 to 2 as A. Campbell got four for five, including a triple. After the Peons had eked out a 7 to 6 ad-vantage on the diamond over the Duds, a check of players found the Peons with an ineligible player in the lineup and the Duds got a forfeit. Another tilt that might have produced some real fireworks have produced some real fireworks between Bldg. 9212 and UCJV was washed out by a sudden shower. SCHEDULE

Wednesday, July 30—5:45, Rusty Nine vs Hobslurps. 7:15, Bums vs UCJV. 8:45, Short Circuits vs Guards.
Thursday, July 31—5:45, Grocers vs Hobslurps vs Bldg. 9212. 8:45, Duds vs UCJV.

Woodpeckers Lose To K. & H. By 6 To 5 As Bobbles Costly

A ghastly first inning in which they allowed six runs to trickle across the platter proved disastrous for the Y-12 Woodpeckers in the Class B Recreation League last Thursday as the Kaighin and Hughes softies took a 6 to 5 decision. Ed Sise held the K. & H. lads to only four hits, but six bobbles by his mates was too much of a handicap to overcome. Agee homered for Y-12.

The Y-12ers hope to get back into the victory column at 9 o'clock

tomorrow night, Thursday, July 31, when they meet the First Presbyterians at Middletown.

Red Birds And ORNL To Battle Monday, K-25 To Face Winner; Robins, Bluebelles Clash Friday

Y-12 Lassies Trounce 📍 K-25 To Meet Walker Women In Playoff

The Y-12 Robins battled into a playoff for the second half of the Knox-Ridge League title in the women's division by slamming the women's division by slamming the K-25 Bluebelles for a 12 to 9 victory last Friday night at Middletown. But for a shocking and unexpected defeat earlier in the week by by the same K-25 lassies by the score of 2 to 1, the Robins would have clinched the second round eround viviled the proof of round crown without the need of

a playoff.

Meet Walker In Playoff

As things stood at press time
of The Bulletin Monday morning the Robins were slated to meet the Cas Walker team of Knoxville Monday night. If the Y-12ers won they would meet the Walker team in a two-out-of-three series set for Tuesday, Thursday and Friday nights.

Cas Walker and the Robins also

finished in a tie for the first half of the season championship and the three game series will be for the seasonal title—providing the Robins win Monday.

The Red Birds got their feathers plucked by the Oak Ridge National

Laboratory Nats in their final game of the season last week by the score of 6 to 3.

In that triumph over K-25 last Friday Ella Mae Koontz was wild,

passing five and hitting several other batters. However, she fanned four and hurled well in the clinches. Giles hit three for four for the winners, including a double. Imogene Loy got two singles, one a homer; and Brown also hit twice safely.

Those early week losses by the Y-12ers were heartbreakers, but no alibis were forthcoming from the players. They just got well licked, that's all.

Birds Couldn't Hold Lead

The Red Birds got an early lead on the Nats, but couldn't hold on to it as light hitting again proved an unsurmountable handicap as big King Kong Keller tossed a three-hitter at our side. Four er-rors by the Y-12ers didn't help the cause along a bit, either. Montgomery, Loy and Morgan, got the only Y-12 safeties, al Isingles.

The law of averages had to provide that the K-25 Bluebelles had to win a game some time, but it was the Robins' tough luck that the only victory by the K-25 lassies in the results of leaving had been some time. in two years of league play had to find Y-12 on the victimized end. Ella Mae Koontz threw a one-hitter for the Robins, who only got two themselves for their only run in the first round. Both of the K-25 runs were scored without a

The worst defeat ever handed a Y-12 team was absorbed by the Robins when Cas Walker handed them a 19 to 3 trimming last Wednesday night in Knoxville. Koontz didn't have her regular stuff and advantage and from then on it was "Katie, bar the door."

Available line scores follow:

K-25 Bluebelles ... 201 006 0— 9 7 3 Robins ... 610 104 x—12 12 3 Gross and Johnson. Koontz and Hobson. Half of the season of Ridge league and hope tain their perfect record.

Double Elimination Set For Men; Women Will Play Two Of Three

Tourney Time Is Here Again. Beginning next week the three men's varsity softball teams from Y-12, K-25 and the Oak Ridge National Laboratory and the Y-12 Robins and K-25 Bluebelles in the women's division will begin battling for the honor of representing the Atomic City in the state soft-ball tournament to be held in Cha-anooga August 15, 16 and 17.

The men's tournament between the Y-12 Red Birds, K-25 Blues and ORNL Nats will be a double-elimination affair. The women's playoff will be a two-out-of-three

Birds Meet Nats In Opener

The men's playoff series will be staged August 4, 6, 8 and 10 with another game to be played August 11 if necessary. The opening tilt will see Y-12 meeting ORNL with K-25 meeting the with the series of the series K-25 meeting the winner on August 6. The losers of the opening games will play August 8 with the final game between the survivors of the top and bottom brackets meeting August 10. If the lower bracket team is victorious in this game the additional contest will be staged on August 11.

Will be staged on August 11.

The feminine series is slated to get under way August 8 with the second game on August 10 and the third, if necessary, on August 11.

All games will be played at Middletown Park. The August 4 contest between the Red Birds and Nats will start at 8 o'clock. The August 6 fraces will be at 8:45 August 6 fracas will be at 8:45 o'clock. Where women's games are set for the same dates as the men's contests-August 8 and 10 and possibly August 11, the program will consist of double headers with the women opening the entertainment at 7:30 o'clock and the men fol-

lowing at 9 o'clock.

Admission for the first two games on the program will be 14 cents for children and 25 cents for adults. In all other games the admission will be 25 and 50 cents

Class B Softie Tourney Opens On August 18

One of the biggest free-for-alls in the history of Oak Ridge soft-ball will get under way on Mon-day, August 18, when the city Class B tournament starts at Mid-dletown Park. All Y-12 plant league teams are eligible to enter the jousts and entries may be filed at the Y-12 Recreation Office,

North Portal.

The Y-12 teams may enter the tournament by filing their intention to play and a roster of players at the Recreation Office not later than Monday, August 11. The teams must use only the same players that have been used in

The event is expected to draw learly 50 teams. Eligible teams are those playing in any plant leagues in the three Carbide units in Oak Ridge, the Recreation League and Church League.

Pistol Team Meets Ridge Independents Tonight

The Y-12 pistol team is scheduled to meet the Oak Ridge Inde-pendents on the Sportsmen's Association range tonight. The Y-12ers are unbeaten in the second half of the season of the Oak Ridge league and hope to main-

DON'T ANYONE SAY THAT East Tennessee fishing waters don't have all varieties and sizes of catchable creatures. Just take a gander at this pair of pisca-torial prey that fell to C. A. Wallace, left, and C. W. Kidd, of Electrical Maintenance. Wallace has a fine five-pound, five-ounce largemouth bass that was 21½ inches long. Kidd's catch was a 22-pound turtle. The fishermen landed their prizes just above the Fort Loudoun Dam on July 19. The picture was furnished The Bulletin by S. A. Hluchan, of the ORNL Instrument Department, former president of the Carbide Camera Club.

Y-12 Racqueteers Beat K-25; All Tilts Closely Contested

In one of the most stubbornly contested tennis tussles staged in Oak Ridge in years, the Y-12 net team nicked the K-25 racquet wielders for a 5 to 0 triumph last week. The whitewash score is no indication of the closeness of the court clashes as three of the four matches went to the three set limit and in the other a marathon first set was played. The Y-12ers will meet the AEC team Thursday afternoon of this week.

Jack Ransohoff, city champion, had quite a scrap on his hands before he defeated Bob Nimmo, of K-25, 7-9, 6-3, 6-2. Nate Smith, former city titlist, also lost his first set but walloped another former champion, Larry Thaler, 2-6, 6-3, 6-2. In the other singles match Don Smith outlasted Bob Gover, 10-8, 6-1. In doubles the battling continued as the K-25ers put up terrific battles before bowing. George Wells and Fred Hurst took John Michel and Frank Brinkley 6-4, 2-6, 6-3; and Frank Ballenger and Leland Mann trimmed Phil Collett and Jim Herring 6-1,

The Y-12 netters now have a two and one record in the last half of the season, holding second place behind Oak Ridge National aboratory which has a and none lost mark. The Y-12 team won the first half of the season

Physics Seminar Changes Time, Place Of Meetings

The time and place for the weekly meetings of the Oak Ridge Physics Seminar, attended by many Y-12ers, has been perma-Physics Seminar, attended by many Y-12ers, has been permanently changed, it was announced last week. The meetings in the In Solids."

Today Final To Enter Plant Golf Tourney

Interest appears high in the annual Y-12 area golf tournament to be played at the Oak Ridge Golf and Country Club August 2-3 and 9-10, it is indicated by the rush to file entries at the Recreation Office, North Portal. The deadline for entrance in the event is 4:30 o'clock this afternoon. Wedis 4:30 o'clock this afternoon, Wednesday, July 30. May Try For Better Spot

Golfers in the plant league may enter without qualifying on the averages as of July 30. However, if any player wants to compete for the medal play trophy or try to advance from whatever divisions they are now in, they must play an 18-hole qualifying round to establish a new scoring average.

In addition to the medal trophy, prizes will be awarded winners in each flight. The entrants will be divided into divisions of 16 players, with as many divisions as necessary to determine flight positions. Winners in the first division will form the championship flight and the losers the first flight. Other flights will be determined in a similar manner in division com-

Play To Open Saturday
All first round matches are scheduled for 8 a. m. Saturday, but matches may be played at some other hour that day if the contestants mutually agree. Second round bouts are slated for next Sunday, August 3, but also may be reset for some time during the week if the players desire. Second round matches must be completed by Friday, August 8, however. Semi-final matches should be completed on Saturday, August 9, with finals the following day, Sunday, August 10.

Rough Riders Hold Golf League Lead

The Rough Riders held first place in the Y-12 Plant Golf League last week by trimming the Bldg. 9212 divot diggers for two points and maintained their clean record. In other matches, all decided by the two-point margin, the Rippers beat the Grand Slammers, Hooks humbled the Turf Riders, the Eagles took the Rebels, the Four Woods walloped the Four 100s and the Fat Boys bumped the Shankers

the Shankers.

future will be held at 3:15 o'clock Friday afternoons in the auditorium of the new Research Building at the Oak Ridge National Labora-

tory. The building is No. 4500. For the meeting this week, Friday, August 1, the speaker will be

FOLKS OF THE ANALYTICAL CHEMISTRY DIVISION HELD A WATERMELON FEAST recently at the Grove Center picnic grounds that was well attended by a large throng that had a large time. A general view of the guests is shown at top. At left center, from left, are H. P. House, Roberta McCutchen, M. T. Kelley, Mrs. Frances Robinson, holding baby Cynthia; James Robinson, guest of honor at this affair; and his little son, Steven. At right center a hot argument raged at the horseshoe stake between Charley Boyd, E. C. Lynn, Mrs. Charley Boyd and Sue Ross. Joe Lee is in the background. Naturally, there was a lot of small fry at the party, as shown in the bottom picture. From left are Mrs. Oscar Menis, holding Danny Menis, then come Peggy Lynn, Julian Roemer, Bo Rowan, Charley Boyd, Jr., Richard Lund, Fritz Roemer, Cynthia Robinson, Boyd Briggs, Bill Rowan, Sylvia Idom, Steven Robinson, Jeffery Lund and Miss Janet Debnam, holding Jennifer Lund.

Rides Wanted And Offered

Riders Wanted - From Inskip, via Clinton Pike and Edgemore Road, straight day. F. E. Shipley, Jr., plant telephone 7793, home

telephone 6-3797. **Ride Wanted**—From vicinity of Washington Pike and Whittle Springs, Knoxville. R. D. Satterfield, plant telephone 7946, home telephone 3-5243. **Ride Wanted**—From Columbia Christophy days.

Hall, straight day. Louise Argo and Edna Fine, plant telephone 7736, home telephone 5-5763.

The Y-12 varsity golfers took their fourth straight Smoky Mountain Golf League victory without Carbide To Sponsor Election a loss last Sunday when they whipped the Knoxville Utility Board by 15 points to 9. The match was played at the Whittle Springs course in Knoxville and the Y-12 team posted the exceptional average of 76 for the engagement. Carl Door led the field with a two under par 68.

The Y-12ers are tentatively scheduled to play K-25 on August 16 and Sears Roebuck on the following day. After those matches only one more engagement remains for the Y-12ers, a bout with TVA to wind up the season.

Women's Voter League Asks Y-12ers To Hear Candidates

All candidates whose names will appear on the ballot in the August county and primary elections for whom Oak Ridgers will vote have been invited to a meeting of the Oak Ridge League of Women Voters at 8 o clock tomorrow night, Thursday, July 31. The meeting will be held in the civic auditorium in the Oak Ridge High School. All Y-12ers and members of

their families qualified to vote in the elections a week from Thurs-day have been urged to attend the meeting to see and hear the candidates. Included among the invitations issued by the league are Varsity Golfers Top to candidates for governor, United States senator, house of represento candidates for governor, United KUB; Average High tatives, state legislature and ty offices on which Oak Ridgers will vote.

Returns On WATO August 7

Carbide and Carbon Chemicals Company will sponsor a broadcast of election returns on the night of Thursday, August 7 over Oak Ridge Station WATO. The election is of great interest here as candidates for governor, state legis-lature, United States Senator and house of representatives engage in the Democratic primary election and several Anderson County Orfices will be filled in the county general election.
